Profile

Creative and detail-oriented Front-End Developer with +3 years of experience crafting responsive, dynamic, and user-friendly web applications. Specialized in React.js, Next.js, and TypeScript, with a passion for clean code, performance optimization, and elegant UI/UX. Adept at collaborating with teams and transforming ideas into fully functional digital experiences, seeking a Front-End Developer position where I can contribute to building modern, performant, and user-focused web applications.

Education

B.Sc. in Software Engineering

Faculty of Information Technology Engineering, Aleppo University

Graduation: October 2024

Grade: 85.36 / 100

Professional Experience

Front-End Developer

- **Key Contributions:**
- Implemented performant and responsive interfaces using **React.js**, **Next.js**, and **Tailwind CSS**.
- Developed UI components with **Bootstrap**, **SASS**, and **Framer Motion** for dynamic animations.
- Optimized frontend performance through **lazy loading**, **code splitting**, and **memorization**.

- Collaborated with UI/UX designers and backend teams for seamless integration
 - Integrated **RESTful APIs** and **GraphQL** for real-time, data-driven components.
 - Conducted **code reviews** and mentored junior developers.
 - Led workshops and trained peers for global competitions like **ICPC**.
-

Technical Skills

Front-End Development:

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Swiper.js
- **Styling & UI:** Tailwind CSS, Bootstrap, SASS/LESS
- **State Management:** Redux, Zustand
- **Animations:** Framer Motion, GSAP, Lenis, React Bits
- **Accessibility & SEO:** Semantic HTML, WCAG, Meta optimization, Next SEO

Mobile Development:

- Basic knowledge of **Flutter** and **Dart** for building cross-platform mobile applications

API & Backend Integration:

- **APIs:** RESTful, GraphQL
- **Authentication:** JWT, OAuth
- **Cloud Services:** Firebase, Cloudinary

Tools & DevOps:

- **Version Control:** Git & GitHub & Gitlab & Bitbucket
- **Deployment:** Vercel, Netlify
- **Testing:** Postman, Jest, React Testing Library
- **AI Tools:** ChatGPT, GitHub Copilot, Manus Ai

- **Analytics & Monitoring:** Google Search Console, Google Analytics (GA4), Microsoft Clarity
-

Portfolio

[Personal Portfolio Website](#)

Personal Portfolio Website — Built with Next.js, TypeScript, and Framer Motion

Showcases technical projects, design approach, and contact details through a clean and interactive interface.

1 **Express Syria Platform** — *Digital Shipping & Logistics Platform*

A comprehensive web and mobile platform that automates the shipping process for import and export services.

Includes a landing page, dashboard, and user mobile app.

Built with **Next.js** for SEO optimization, **React.js** for interactive components, and **MUI** for a responsive dashboard interface.

2 **Movie Finder Web App** — *Dynamic Movie Search & Favorites Platform*

A responsive platform for discovering, filtering, and saving favorite movies for each user.

Integrated with an **external API** to fetch real-time movie data and built using **React.js**, **MUI**, and **Framer Motion** for smooth animations and modern UI transitions.

3 **Translive Video Platform** — *AI-powered Video Translation Web App*

An application that allows users to upload and translate videos into any language, providing instant text transcripts and translations.

Includes authentication, free-trial mode, and real-time data management using **Firebase**.

Displays user analytics, pricing plans, and platform insights in an intuitive dashboard.

4 **CodeSolve Hub** — *Interactive Problem-Solving Platform*

A web platform that provides programming challenges and algorithmic problem-solving exercises for developers.

Built with **React.js**, featuring categorized problems, submission tracking, and performance feedback to help users enhance their coding skills.

Soft Skills

Critical Thinking & Problem Solving — Able to analyze complex challenges and deliver efficient technical solutions.

- Team Collaboration — Experienced in working within agile teams and cross-functional environments.
- Time Management — Skilled at balancing multiple tasks, meeting deadlines, and maintaining code quality.
- Continuous Learning & Adaptability — Constantly exploring new technologies and improving development practices.
- Communication — Clear and proactive in discussions with designers, developers, and stakeholders.
- Attention to Detail — Focused on writing clean, maintainable, and accessible code.
